

SMART PACKAGING

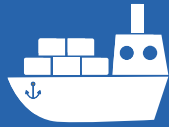

GLOBAL IMPACT CALCULATOR

Over \$2.5 billion dollars of medical exam gloves are sold annually throughout the world, with the United States representing more than half of the demand. Converting to smartly packed gloves (more than 1000 per case) has a measurable impact on the environment while also increasing your supply chain efficiency.

Smart packaging drastically reduces the use of natural resources (trees), printing materials, energy, fuel for trucking, ocean container space and freight, transportation freight, fuel and truck space, storage space and order and payment frequency.

One large container ship pollutes as much in one year as 50 million cars*

ULTRA EFFICIENT! - ANNUAL LOGISTICAL SAVINGS - ULTRAFORM® VS. STANDARD EXAM GLOVE PACKAGING

Annual Case Purchases (cases of 1000 gloves)				Estimated Miles from Microflex DC to Distributor Warehouse
